Baron Liebig in his celebrated work on Animal Chemistry says: 'An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the nuccous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the human stemach.

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a dimi-nution of the due quantity of the Gastric Juico is a prominent and all-prevailing cause of Dy-pepsia;' and he states that a distinguished prossor of medicine in London, who was severe-afflicted with this complaint, finding every ly afflicted with this comptaint, many thing else to fail, had recourse to the Gastric Juice obtained from the stomachs of living animals. nals, which proved completely successful.

The editor said, Dec. 22d:

Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Bebility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor a fact worthy of great consideration. They are pleasant in taste and smell and can be taken by presons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

Scott's Weekly, one of the best Literary papers published, said, Aug. 25—

Dr. Houjdard's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems.³
